Screening Site Inspection Report
OHD 010 467 538**

Dear Ms. Fay:

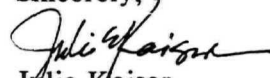

PRC Environmental Management, Inc. (PRC), is enclosing a copy of the final screening site inspection report (SSIR) for the above-referenced site. PRC received notice from Ms. Jeanne Griffin of the U.S. Environmental Protection Agency (EPA) that the Ohio Environmental Protection Agency (OEPA) did not have any comments on the draft SSIR and that PRC should finalize the report.

Appendices A, C, and D of the draft report were not changed; please attach your copies of these appendices to the final SSIR. Pages B-1 through B-9 of Appendix B (site photographs) have changed; the rest of the Appendix was not changed. Please replace pages B-1 through B-9 with those provided in the final SSIR. The NPL characteristics data collection form, transmittal memorandum, and preliminary Hazard Ranking System score sheets were not changed.

A copy of the final SSIR with original site photographs and the narrative case summaries of the laboratory reports are being forwarded to OEPA's Southeast District Office.

If you have any questions concerning the final SSIR, please do not hesitate to call me at (312) 856-8736.

Sincerely,

Julie Kaiser
Project Manager
